

PhD Student Recruitment at SIAT and UCAS

The Shenzhen Institutes of Advanced Technology (SIAT), Chinese Academy of Sciences, and the University of Chinese Academy of Sciences (UCAS) are jointly recruiting motivated PhD students. Each PhD candidate will be supervised by Professor Qiang Qu, Professor at SIAT, CAS, and co-supervised by Md Monjurul Karim, Assistant Professor at SIAT, CAS.

Our Research Areas

- Artificial intelligence and LLM-based intelligent systems
- Decentralized AI and trustworthy AI agents
- AI security and cybersecurity
- Blockchain, Web3, and decentralized applications
- Financial AI and quantitative intelligence
- Computational biology and DNA data storage

Scholarships (Will be nominated by CAS based on Candidates' Profile)

- **ANSO Scholarship:** approximately RMB 6,000 to 7,000 per month
- **CSC Scholarship:** approximately RMB 4,000 to 5,000 per month
- **SIAT Partial Scholarship:** approximately RMB 2,500 to 3,500 per month

Who Should Apply?

Applicants should be born on or after **1 January 1992**.

Candidates with a first-author publication in a **JCR Q1/Q2 journal** or a **CCF-indexed conference** are especially encouraged to apply. A strong publication record provides a stronger basis for the admission and scholarship review process.

Candidates without publications can also be considered if they have a strong academic background, high CGPA, and genuine motivation to pursue research. Motivated master's students, including students currently in their second year, are welcome to contact us early for consideration in a future application cycle.

How to Apply

Please send your **CV only** to:

karim@siat.ac.cn

Shortlisted candidates will be contacted for further discussion.
